Little Boy Blue Double

The Little Boy Blue Double, produced in May 2007 in a special edition of five pieces, features the functionality of two LBB Standard, a noise generator, and a “Mysterious Reactor”, all in a single, AC-powered case.

Features

4 voltage-controlled oscillators (mix of saw, inverted saw, and triangle)

2 separate preamps

2 envelope followers with optional inverters

Bright and Dark noise outputs

Master Volume

4-node “Mysterious Reactor”

Supplied with 14 patch cables

Power: 120 VAC, 10 Watts max. (Can also be configured for 220 V operation by an internal jumper.)
